23 Thefts Occur this Week in Quad-Cities

Burglars Loot Homes, Taverns, Businesses; 3 Autos are Stolen

Police of the Quad-Cities and the sheriff's office handled 23 theft cases this week, which included a sizeable house burglary as well as burglaries at business places and thefts of autos.

Burglars must have had a truck to haul away loot from the home of Norris Ward, 141 Carver street, in Eagle Park Acres. Items taken had a total value of \$800, deputies said.

Ward discovered the break-in upon his return home Tuesday morning. He told county authorities the following items were taken:

A 24-inch console television set worth \$350, a portable TV worth \$200, a \$50 radio, a .22-caliber revolver valued at \$12, a .22 rifle worth \$30, an automatic shotgun valued at \$180 and three tape recorders worth \$40.

The house was entered through a window and was thoroughly ransacked. Ward said that the thieves also stole meat from his freezer, a check book for the Madison bank and \$3 worth of Kennedy half dollars.

Norbert Woods, 13 Devon Hill lane, reported at 9:30 p.m. Tuesday that \$34 in bills were stolen from his dresser drawer about a week earlier. He said he doesn't know who gave the thief a chance to return the money.

\$100 Radio Stolen

Bobby Fisher, 505 Main street, Venice, reported that a Venice police Tuesday afternoon that a radio valued at \$100 was stolen from his home. There was no sign of forced entry, but Fisher told police the burglar apparently entered through a window that had been left open.

A burglar broke into the Greenwood tavern, 1013 Greenwood street, Madison, last night and early this morning. The thief was gained by prying open a door on the side of the building. Madison police said the burglar took \$40 cash from a can and \$75 from the cash register, as well as an undetermined amount of change from the juke box and pool table.

Burglars Use Saw

Burglars used a saw to cut a hole in the west side of the Jenkins confectionery, Kind and Bissell streets, Venice, last night or early this morning. Venice police reported. The thieves are equipped with \$45 worth of cigars, an undetermined amount of change, \$5 worth of pennies and a quantity of pool table chips.

Burglars broke into Owens-Illinois Glass Co., Madison, late last night by knocking out a window on the east side of the building, and prying open a cigarette machine in the office. An undetermined amount of change was taken.

Illinois Power Co. To Cut Electric Rates by June 25

Illinois Power Co. yesterday announced new electric rates which will result in annual savings of \$3,000,000 to electric customers of the company. A petition to apply the rates has been filed with the Illinois Commerce Commission.

Approximately two-thirds of the reductions in rates will go to residential customers of Illinois Power. E. Mathias, manager in this area, said. Reductions will be effective in billing periods ending on or after June 25.

This is the fourth reduction in electric rates by Illinois Power Co. in five years," Mathias said. "In that five-year period total savings to customers now amount to \$7,000,000 annually. Electricity is the one vital commodity that continues to decline in unit cost in these days of generally rising costs of living because of more efficient operation and the rising curve of electricity usage."

The company works constantly to increase the efficiency of our operations so the trend of lowered costs to our customers can continue."

He said about 94% of the company's 332,000 residential electric customers will receive rate reductions, varying according to usage. For example, the user of 4800 kilowatt hours a year will see a reduction of about \$4 annually. The 6400 kwh user would get a reduction of about \$15 a year. The average will run about \$10.

Probably the first to notice the downward trend will be the heavy users of home air conditioning as the new billings begin late in June," Mathias added.

Incorporated in the reductions is a substantial cut in the rates applied to electric home heating. Commercial and small industrial users will share the remainder of the \$3,000,000 reduction in rates, he said, with an average reduction in rates of about two percent a month, varying according to usage.

Bellcoff New City Clerk in Madison

Named by City Council To Succeed Percy Lux; Other Posts Studied

John Bellcoff, a veteran of Madison city affairs, was appointed as city clerk of Madison at a meeting of the city council Monday night. He succeeds the late Percy Lux.

A former grocer and now a salesman for a Granite City auto agency, Bellcoff is president of the Madison board of education, a member of the Tri-City Authority Board, chairman of the City Plan Commission and assistant chief of the Madison volunteer fire department. He recently was re-elected to a three-year term on the school board.

Mayor Stephen Maers said he was selected because of his 16 or more years of active public service in filling non-salaried positions.

The mayor said state statutes are being studied to determine if he can remain in any of the positions or to avoid possible conflict of interest.

The position of city clerk has been held by Edward J. Board, city comptroller, on an acting basis following the death of Mr. Lux on April 14.

Other Appointments
During the week Mayor Maers reapportioned the following to boards and as heads of departments:

Discuss School Merger

The council went on record lending support to the Madison school board in seeking to prevent the construction of public housing in the Madison school district portion of the city of Venice. Plans are being made to provide for Kerr Island residents who are to be displaced by Great River road construction.

He noted that consolidation would require approval by referendum in both districts and that passage would be unlikely because of the higher ratio of assessed valuation per pupil in Venice.

Property Appraised
Two tracts of property at 1835 Second street, containing the only private property adjacent to the Second-Third streets city recreation grounds set values at \$17,100 and \$16,900.

Federal Agency Preparing Report

New Sewer Aid Program for Cities Like GC Under Study

Approval by Granite Cityans of matching - fund local sewer programs is of growing importance, Mayor Donald Partney noted this week. Increasingly, the federal government is indicating its concern with unsewered stormwater-sanitary sewer systems - and its willingness to pay part of the cost if the affected community is willing, the mayor explained.

Additional evidence of this was provided last week by a letter sent to Mayor Partney by Herbert C. Foerster, Chicago, general manager of the American Public Works Association Research Foundation.

900 Cities on List Foerster related to the mayor that the "American Public Works Association is conducting an important survey for the Federal Water Pollution Control Administration (FWPCA).

"This involves the interviewing of officials of approximately 900 cities that have combined sewer systems."

"Our information indicates that your city has at least some combined sewers, those where both sanitary sewage and storm-

water flow in the same pipe. MORE ABOUT

Rev. Baumann

United Church of Christ, will present the commencement address on the subject, "Meaning and Mission in the Twentieth Century." Thirteen Missouri students are among those who will receive Master of Divinity degrees during the service.

Two other churchmen who will be conferred honorary Doctor of Divinity degrees with Rev. Baumann, are Rev. Michael J. Eckert, pastor of Hale United Church of Christ, Dayton, O., and Rev. Carl H. Grathwohl, administrator of the Evangelical Deaconess Hospital in Detroit, Mich.

Pastor of St. Peter's Church since January 1954, Rev. Baumann came here from Lansing, Mich. Prior to that time, he had served in pastorates in Indiana and Illinois. He is a native of Farmington, Mo., however, most of his youth was spent in Columbia, Ill.

Graduate of Elmhurst

Rev. Baumann was graduated from Elmhurst College in 1937 and from Eden Seminary in 1940.

Widely-known for his activities beyond the borders of his own congregation, the minister has participated in community affairs and in programs involving denominational and inter-denominational work.

Currently, Rev. Baumann is serving as chairman of the board of directors of the Illinois South Conference of the United Church of Christ.

Rev. Baumann and his wife, Kathleen, are the parents of two daughters, Miss Mary Anne Baumann, a teacher in the Sterling, Ill., school system, and Miss Ruth Baumann, who is in her junior year at Illinois State University at Normal.

Toured German Parish

During his trip to Germany as part of an annual exchange program between American and German ministers, Rev. Baumann spent a week with a German parish minister, accompanying him on all the activities which comprise a typical day in his ministry.

Together with other American pastors on the tour, he also studied the relationship of the church to the country's growing urbanization; the place of theological education; programs of continuing for ministers, and the relationship of the church and state. The visiting pastors also discussed with their German hosts, problems which have arisen in a church separated by east and west border divisions.

The exchange program is sponsored by denomination's Council for Church and Ministry. While in Europe, the American ministers were guests of the Evangelical Church of the Union, a major Protestant church in Germany which is one of the "spiritual ancestors" of the United Church of Christ.

Conduct Charge Filed

Answering a complaint in the 3200 block of Kilmer drive about 11:30 p.m. Monday, police took into custody James Hackney, 19, of 2015 Lindell Blvd., on a charge of disorderly conduct. He was later released on \$25 cash bail.

Trash Container Study By Madison Rotarians

Possibility of replacing present Madison trash containers with new receptacles was discussed by Madison Rotarians at their weekly luncheon yesterday. President Wayne Scannell presided.

The club provided the present containers and has repaired them periodically. Further repainting has been authorized, but will be delayed until a decision is made on whether to obtain new cans.

Summer program plans were outlined, with Will Radman scheduled as the June 7 program chairman. Guest speaker will be Harry R. Johnson.

It was announced that entertainment has been arranged for the club's June 21 installation dinner to be held at the Rose Bowl.

Voloski Hurls No-Hitter in Classic Loop

Winning pitcher Jerry Voloski pitched a no-hitter as Granite City Steel Credit Club defeated the Merchants 1-0 in fast-pitch softball classic league play at Wilson Park Tuesday night. Another game, Kirch's vs. Merchants, was rained out.

The losers' pitcher, Ray Hoffman, gave up only three hits.

Credit Union's run was scored in the third by George Cook, who had singled. He was driven in by Don Crabtree's single. Jerry Wintgen got the only other Credit Union hit.

Adults Sought For Madison-Venice Khoury

Managers and coaches are needed for the Madison-Venice Khoury baseball league which is hoping to open its season Monday, June 5, according to William Clinton, league commissioner.

"Teams are still registering, and we hope to have enough managers and coaches for the boys," Clinton, who is Madison postmaster, commented.

The Madison summer recreation program activities will not conflict with Madison-Venice Khoury league games, because daily program events will end before the Khoury game time of 6 p.m.

Twenty to 25 teams will be divided into four age brackets: Atom 7-9, Bantam 9-11, Midget 11-13 and Juvenile 13-15.

Three locations having seven fields will be used for Monday through Friday games this year.

Two diamonds are located at Third street and Highland avenue, Madison, one of them lighted. Another pair of diamonds is located at Third street and Washington avenue, Madison. Three diamonds in Venice's Lee Park will be lighted by the league, with one light-equipped.

Final Innings Decide 35 & Over Loop Wins

Tony & Joe's could not overcome Local 10's in a seven-inning lead, including a homer by Carl Linhart, and lost 1-45 at Wilson Park Monday night.

Fifth and sixth-inning rallies enabled Jacobsmeyer's to come from behind and run Midtown Farmers 1-64, and Venice 1-1300 picked up three runs in the seventh and edge Coachelle 15-14 in other slow pitch 35 & Over league games Monday.

Besides Linhart, Cotton Singler and Rex Buckingham hit homers for Local 16. Singler also had a double and a single to lead the 14-hit team total. Lefty Harris had three singles.

Von Dee Cruse and Gus Ligoud tripped for Tony & Joe's, which garnered eight hits.

Fifth and sixth-inning hitting for Jacobsmeyer's included singles by John Harrison, John Palchick, Dick Kostoff, Rich Krieschok, Harry Taylor and Al Pasquas, doubles by Paul Gabriel and Les Thompson and a triple by Kostoff. Kostoff led the 25-hit attack with a homer and a single, and a homer. Oldie Jacobsmeyer had a double and two singles.

Tallying as many runs as hits, Midtown had only one out and hit a homer by Ed Reinagle.

A post-1000 amassed 19 hits, including six extra-base hits by Frank Orris, Les Thompson and Al Haugh tripped and Lloyd Edwards, Haug and Robert Bowler doubled. The team's fourth-inning four-run singles by Melvyn, Edwards, Haug, Carl Harrison, Dick Foy and Orris and Bowler's double.

Nick Bogovich homered and Norm Martineau singled twice and doubled for Coachelle, which had 14 hits.

Rain Prevents Auto Races, Softball Games

Events scheduled for this week that were rained out included International Motor Contest Association sprint car races at the Tri-Cities Speedway on Memorial Day evening, Wednesday night's softball activities at Wilson Park and a Cahokia-Venice area softball team game in the Twilight Softball league at Caseyville last night.

Chouteau Landfill Firm Challenges County Ordinance

A circuit court hearing date had not yet been set today for a declaratory judgment and injunction pleading filed at Edwardsville yesterday in an attack upon the constitutionality of Madison county's new sanitary landfill ordinance.

The suit was filed by the Chouteau Landfill Corp. of Missouri, operator of a landfill on Chouteau Island near the old Chain of Rocks bridge.

A 1965 complaint filed against Madison county and Zoning Administrator Jack Clifford, alleges the ordinance violates the Illinois and federal constitutions and Illinois state statutes.

The firm asks for a circuit court judgment declaring the ordinance "void, unconstitutional and unenforceable." It also seeks an injunction to prevent Clifford from enforcing the ordinance.

Claim Fees Illegal

Specifically, the complaint alleges the ordinance, adopted by the board of supervisors in December, is "illegal and invalid" because its fee requirements are contrary to terms of the state law which authorizes counties to regulate garbage disposal areas and vehicles hauling refuse.

The state Garbage Disposal Act of 1957 permits counties to license dump and landfill sites at \$50 annually with a maximum fee for vehicles hauling garbage and refuse.

Terms of the Madison county ordinance call for a license fee of \$300 per year on all dumps and landfills, with a permit fee of \$100 on each out-of-state vehicle.

The county ordinance requires a per vehicle permit fee of only \$2 for all in-county vehicles.

Carp's Store Opens Anniversary Sale

A special two-week sale event to mark the 49th anniversary of the establishment of Carp's Department stores opened at the Granite City store today and will continue through June 10, according to Dean Andrews, store manager.

The store will offer many sales prices to its Quad-City area customers as a means of expressing the company's gratitude for their patronage, Andrews said.

The Carp's Department store firm was established in 1918 with the opening of the first store in Mt. Vernon, Ill. Under management of the same family during its 49-year history, the company now has 65 stores located in Illinois, Missouri, Arkansas, Florida, Alabama, Georgia, Mississippi and Louisiana.

The stores carry complete lines at popular prices of clothing, shoes, fabrics, bedding, towels, curtains and rugs. The fourth generation of the Carp family is now operating the business, with H. M. Carp, grandson of the founder, as president.

Andrews has been manager of the Granite City Carp's store since January, although he came here last November and worked for a while with the late George Donovan, former manager who was promoted to the regional sales staff in January. Donovan later was injured fatally in a traffic accident.

Andrews came to Granite City from Jacksonville, Ill., after ten years managerial service in the retail sales field.

Bishop Theodosius Plans Weekend Visit in Area

Bishop Theodosius, former pastor of the Nativity of Our Virgin Mary Eastern Orthodox Church of Madison for more than four years, will visit in the area Saturday and Sunday while enroute to a new assignment in Sitka, Alaska.

He will co-celebrate the Vesper Service Saturday at 7 p.m. at the Madison church, Fifth street and Ewing avenue, and the pontifical Divine Liturgy at 9:30 a.m. Sunday. A tea will follow the Vesper Service and a dinner in the Bishop's honor will be held Sunday in the church hall following the Divine Liturgy.

Bishop Theodosius was consecrated May 6 at the Holy Protection Cathedral in New York City and was charged by the Great Council of Bishops to administer the Diocese of Sitka, Alaska. He plans to establish a pastoral school in Alaska and to undertake the project of rebuilding the world-famous St. Michael's Russian Orthodox Cathedral in Sitka, recently destroyed by fire.

He also was appointed vice-chairman of the Department of External Affairs and a member of the Finance committee and the Orthodox Fellowship committee of the Standing Conference of Orthodox Bishops of America.

He received the holy tonsure of monasticism in March 1961 and was given the name Theodosius, his heavenly protector being St. Theodosius of Chernigov. He was ordained to the Diaconate in October 1961, and was ordained to the Holy Priesthood on Oct. 22, 1961, by the Most Rev. Benjamin, Archbishop of Pittsburgh and West Virginia, on his 50th anniversary in the Holy Orders.

He was assigned Rector of the Nativity of Our Virgin Mary Eastern Orthodox Church in Madison in November 1961, where he served as Parish Priest for four and one-half years.

During his stay in the Madison area he led the parish in the erection

and consecration of a new church. He also served as assistant chaplain of the Eastern Orthodox Church Federation of Greater St. Louis.

While in the area during the weekend, Bishop Theodosius plans to visit with friends in the Quad-Cities and St. Louis. He also will be presented with a "mitre" and Bishop's vestments by the Ladies Sodality of the Nativity of Our Virgin Mary parish on Sunday.

GC Steel Plans Early Shutdown Of Old Furnaces

The Granite City Steel Co. has informed city air pollution control officials that it intends to active its present open-hearth and strip mill slab heating furnaces as soon as it can and possibly may beat the present Dec. 31 deadline, it was reported yesterday by Henry S. Bieniecki, chairman of the Granite City Air Pollution Control Board.

Bieniecki, in a joint statement with Erwin C. Hoelscher, the board's acting technical secretary, said the board has been told by steel company officials that their construction schedule calls for completion of the new Basic Oxygen Furnace plant by midsummer this year, approximately two years after beginning work on the new \$140 million complex.

However, it was pointed out, "there will be a period during which the new steelmaking furnaces and their sophisticated operating and control systems must be tested and brought up to full satisfactory operation. Once that is achieved, the open hearth furnace shop is to be taken out of production."

No New Problems
Bieniecki and Hoelscher said in the report that plant officials have assured the control board that the new steelmaking plant will not result in new air pollution emission problems.

"The plant," the report said, "will be equipped with a modern, high-efficiency system for cooling and cleaning waste gases from the steelmaking process at an investment of approximately \$15.0 million. This is the largest reported expenditure for air pollution abatement in the entire metropolitan area."

"The company has stated that the gas-cleaning equipment is designed to remove more than 90% of the particulate matter from gases from the oxygen steelmaking furnaces."

Performance of the plant will be well within the provisions of the Granite City air pollution control ordinance and the regulations of the State of Illinois the report added.

Sought Target Date
"Members of the board," the report continued, "were particularly anxious to arrive at a target date, when the new plant would take over the entire steel-making operation at Granite City Steel. We are informed that present plans are to deactivate the open hearth furnaces before Dec. 31, 1967 . . . we are also informed the company hopes to significantly better this date."

Bieniecki and Hoelscher added in the report that the same target date applies to elimination of use of the three hot strip mill slab heating furnaces which are the source of considerable dark smoke emitted at the plant.

"The present slab furnaces occasionally emit dark smoke because of incomplete combustion of fuel," the report stated. "They

Sought Nine Months, Still Eludes Custody

Harvey L. Wright, 24, formerly of Bissell street, Venice, but now in Army service stationed at Fort Lewis, Wash., was in custody of military police in St. Louis yesterday afternoon after having been taken from a Venice jail cell Tuesday afternoon in an apparent semi-conscious condition.

Wright, who had been sought by Venice police since last August on a charge of arson, was arrested at Klein street and Broadway in Venice Monday. Tuesday afternoon jailers, summoned by other prisoners, found Wright in apparent pain on the floor of the cell. He was taken by ambulance to St. Elizabeth Hospital from where he later was removed to Scott Air Force Base hospital.

Doctors at Scott hospital notified Venice authorities later that Wright appeared to have nothing wrong with him and that he was in good physical condition and good spirits. Scott Base authorities told Venice police still later that they had informed Wright he would have to face the arson charge.

Yesterday afternoon Venice police learned that Wright had been turned over to military police in St. Louis. Venice police said all they could learn about the latest change of Wright's custody was that military police were investigating an AWOL report. Venice police said the arson charge against Wright grows out of a residence fire on Kerr Island last summer.

Industrial Safety Meeting Set June 7

R. Buckminster Fuller, noted designer, engineer and lecturer, will be the featured speaker at the Seventh Annual Industrial Safety Conference Wednesday June 7 at Southern Illinois University-Southwestern campus.

The program is co-sponsored by SIU, the Madison County Safety Council and the St. Louis Chapter of the American Society of Safety Engineers. The program will be attended by a number of area industrial figures, the clergy, businessmen, safety officials and SIU representatives for talks and panel discussions.

The Supervisor and Safety in a Changing Environment. The program will start at 8:15 a.m. in the University Extension Center with H. Bruce Brubaker, assistant dean of University Extension Service, presiding.

(company officials) state that replacement of these furnaces of modern design and fired with natural gas should overcome this problem. . . . Present plans call for deactivation of the existing slab furnaces by Dec. 31 and earlier, if feasible."

The report pointed out that as a result of the new steel plant development, considerable progress in elimination of air pollution will be achieved this year.

We have been overwhelmed by the responses to our Ideas Contest. Never in our wildest dreams did we believe we would get the number of letters giving us ideas and suggestions. Many of these ideas were impossible to use because of the cost or because of situations beyond our control. Many of the letters caused us to take immediate action in making improvements in our supermarkets. One of the nicest things for us coming out of these letters was how much so many of our customers did enjoy shopping with us.

We are deeply grateful to all of you sending us letters and we want you to feel free to write us at any time on any suggestion, idea or complaint you might have.

Venice Man Fined \$100 On 2 Police Charges

Lawrence Frazier, 24, of 53 Venice Homes, was fined \$100 and costs on charges of resisting arrest and disorderly conduct when arraigned yesterday afternoon before Magistrate Hiscott by Venice police.

Frazier was arrested about 10:30 p.m. Monday at Larry's Tavern, Broadway and Klein street, after a woman appeared at police headquarters across the street and said Frazier had ripped her dress and broken the windshield of her car.

The woman, Phyllis Browning, 1309 Kirkpatrick avenue, filed charges of assault and destruction of property against Frazier, but later withdrew them. Police, however, filed charges of resisting arrest and disorderly conduct after Frazier became abusive at the police station.

GC Alert Siren Testing Planned for Next Tuesday

Granite City's network of seven warning sirens will be activated at 10:30 a.m. next Tuesday, when the recently-installed system is to be given its first full scale test, Victor H. Koenig, Granite City civil defense director, said today.

The director, cautioned that should threatening weather conditions prevail in the area Tuesday morning, the test will be cancelled to avoid confusion.

Unlike the standard tornado warning signal, used in last week's official tornado alert here—a three-to-five minute steady blast—Tuesday's test will include a one-minute sounding of the "Tornado Alert" signal, followed by a one-minute sounding of the "Take Cover" signal.

Under emergency conditions, the "Take Cover" signal will be sounded a full three minutes instead of the shortened one-minute version to be used in the test.

Koenig also reminded Granite City residents today that in the event a three-to-five minute "Tornado Alert" is sounded on the sirens, residents should immediately turn on their radios for information.

He said the "Tornado Alert" signal is used only if information from the U.S. Weather Bureau indicates moderate weather is moving into the Quad-City area or an actual tornado is sighted in the vicinity.

Cooperation from local residents is being sought during Tuesday's test, Koenig told the CD officials in charge of the sirens to notify the civil defense office at TR 7-3157. Information needed by the CD officials includes under what conditions the signal is heard; the area of the city in which the person resides; and whether or not the sirens were sufficiently audible in their specific area.

Employees of Granite City who were asked by the director pointed out that such reports will permit an evaluation of the siren system and, if necessary, to make technical adjustments.

This week to cooperate with civil defense in the listening project, while church officials and school administrators are being requested to do likewise, the director said.

Koenig said Kenneth J. Connor, civil defense coordinator at the Granite City Army Depot, advised him today that Col. Charles E. Hoskins III, GCAD commander, has authorized the Depot sirens to be activated in the event of a major disaster.

He said the "Tornado Alert" signal is used only if information from the U.S. Weather Bureau indicates moderate weather is moving into the Quad-City area or an actual tornado is sighted in the vicinity.

Cooperation from local residents is being sought during Tuesday's test, Koenig told the CD officials in charge of the sirens to notify the civil defense office at TR 7-3157. Information needed by the CD officials includes under what conditions the signal is heard; the area of the city in which the person resides; and whether or not the sirens were sufficiently audible in their specific area.

Tribute to Soldier—He Knew Why He Fought

Sgt. Billy Jay Meador, cousin of four Granite Cityans, was killed May 13 in Vietnam, four days before he was scheduled to return to the U.S. But he did not die in vain; he knew what he was fighting for, relatives here have concluded after reading a letter he had written.

Killed near Bui, South Vietnam, the Farmington, Mo., resident has been returned to Farmington for funeral services and burial. His cousins included Mrs. Paul Poole, Charles Meador, Mrs. Harold Duckett and Mrs. Warren Sellars.

In an earlier letter to a brother, Sgt. Meador related that "when I joined, I knew other men like you were the same uniform. If it hadn't been for you and the other guys, I would never have been able to have been raised in such a great country as ours."

"I know that if I go there (Vietnam) it will hurt Mom and Dad and you a lot, but there are some things a person must do," he served man wrote.

"I want Diane (a niece) and the rest of the kids to grow up in freedom such as we grew up in, and to do this we must fight to stop the Commies from taking over."

Neither Darla Dee nor her twin sister, Carla, had been ill. It was learned. The children were born Jan. 19, at St. Elizabeth Hospital.

Because her parents and twin, the infant is survived by two older sisters, Christine, 16 years, and Annie, four years, two brothers, Bernie, 14, and Jody, six years; and her paternal grandmother, Mrs. Rolf Maxfield of Columbusville, Mich. Funeral arrangements are given in today's obituary column.

Illinois Senate Okays Pollution Bond Bills

The Illinois Senate approved and sent to the House yesterday a series of bills setting up tax incentives and aids to corporations and municipal units that initiate pollution control.

The measures include bills supported by Gov. Kerner who recommended a \$1 billion bond issue for a 12-year air and water pollution control plan and those backed by the Republican leadership calling for a \$750 million bond issue. Both include tax incentives, grants-in-aid and low-cost loans to public and private units installing pollution control devices.

Meanwhile the Missouri Legislature struck from its calendar a proposed bi-State Compact bill, eliminating any possibility of a bi-state agreement this year. Gov. Hearnes indicated he has not given up hope of a bi-state agreement.

Conduct Flag Ceremony

Members of Paddlers' competitive swim team who conducted opening day flag ceremonies at the pool site, included Cub Scouts Tom Tarpo, Mark Buegger and John Barth, and Boy Scouts Steven Beatty, Carl Eakin and Jon and Craig Tarpo. The scouts are members of Troop 15.

Reemployment Rights Of Reservists Explained

Regional Director Wilbur T. Lindholm of the office of Veterans' Reemployment Rights, U.S. Department of Labor, Chicago, is reminding Illinois employers that Reservists and National Guardsmen are entitled to time off from their jobs to perform active duty for training. Upon their return from training duty, they have a legal right to be restored to their position with the same seniority, status, pay and vacation rights as they previously held.

Lindholm said that military training duty for Guardsmen and Reservists normally occurs during the summer months and it can be expected that most of the 60,000 Illinois members will be absent from employment for one or three weeks' training during this period.

The Reservists and Guardsmen are cautioned by Lindholm to notify their employer before they leave for training and to report back to their job immediately upon completion of their tour, or they may forfeit their statutory reemployment protection.

Enrollment Requirement

July 1st Deadline for Area Students at Junior Colleges

All students, who live in non-junior college district and fail to notify their high school board by July 1, 1967, of their intent to attend a junior college will probably be denied the opportunity to attend a junior college. It was announced this week to area high schools.

Junior College District 522 with its college located at Belleville will adhere strictly to this policy. Consequently, it becomes the responsibility of the individual student to contact and request from the superintendent's office of the local high school and unit district an authorization before July 1, 1967, if the student wishes to enroll in any junior college of his choice before July 1, 1967, and June, 1968.

At the present time, Junior College District 522, Belleville, will continue to receive applications for attendance at Belleville for the school year 1967-68 from students who live in a non-junior college district.

After receiving the necessary authorization all prospective students from non-junior college districts who plan to attend Belleville Junior College are asked to write to: Vincent Margerum, registrar, Junior College District 522, 2550 West Blvd., Belleville, for admission's application. ACT scores and high school transcripts must be in Margerum's office at the time the application for admission is received.

Questions concerning this matter may be answered by calling AD-5700 and asking for the registrar. Students from non-junior college districts going to Belleville Junior College, District 522, will be assigned class hours as best fits the master schedule with the major portion of the class assignments being made from 4 p.m. to 10 p.m. Registration for the summer session will be June 28, 29 and 30. Classes begin July 3 and summer session will end Aug. 25.

Summer Term at SIU To Begin on June 19

Southern Illinois University is preparing for the annual week look that comes to the Carbondale campus during the summer term.

It's a time when both the more mature and younger faces blend with the regular contingent of college students because both teachers and high school pupils are on campus for summer courses and workshops.

The spring term is nearly over, with final examinations scheduled for the June 5-10 period. Commencement exercises for an approximate 2400 students will be held the evening of June 10 in the SIU arena.

The summer term will begin June 19 with the New Student Orientation program set for the opening day.

The SIU Student Activities Center said the program will start at 8 a.m. June 19 in Shryock auditorium where Dean Ralph Prusok of the student affairs division will give a welcoming address and Andrew Vaughan of the general studies division will explain the general studies program.

Afterwards there will be group meetings with student leaders at which questions about the University will be answered and students entering SIU's Vocational Technical Institute will tour the VTI facilities near Carbondale.

At Carbondale there will be campus tours led by new student orientation leaders, students who have not gone through advancement and sectioning will be given the opportunity to do so Monday. Those who have completed this processing can pick up class schedules, library cards, and textbooks.

Events will conclude at 3:30 p.m. with a meeting in Browne auditorium, where representatives of the office of student affairs will discuss campus housing.

Lord Wilfred Brown Commencement Speaker

Lord Wilfred Brown, former minister of state for England's Board of Trade, will be the commencement speaker at the Carbondale campus of Southern Illinois University June 10.

SIU also will confer an honorary Doctor of Laws degree upon Lord Brown.

He is chairman of the board of Glacier Metal Co. in England and pioneered the Glacier project, a system of work measurement now being adopted by United States Industries.

"Glacier Concept" was described at the first international seminar on work measurement at SIU in 1965, with Lord Brown as a guest. SIU since has become the U. S. Center for work measurement studies based on theory.

Brown is a native of Scotland and joined the Glacier firm in 1931. He was made a Member of the Order of the British Empire in 1945 and entered the House of Lords in 1963 after being made a Life Peer.

He was one of the founders of the Commonwealth Party in Great Britain in 1946. The party was concerned with advancing social development in England, but subsequently was dissolved.

He has been a member of government committees on technology, science and education, natural resources and docks modernization. He was educated at Rossall School, Lancaster, and is now pro-chancellor of Brunel University, an advanced technology school.

A two-week workshop on "Federal-State Programs in Education" has been scheduled at Illinois State University during the summer post-session Aug. 14-25 by the ISU department of education.

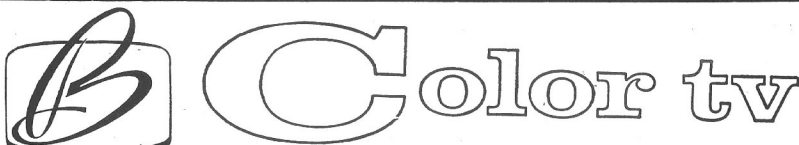

First offered to teachers and school administrators last August, the workshop will be directed by Dr. Eric R. Baber, ISU professor of education, and is designed to provide information about federal and state programs which may be used to improve educational offerings and services.

Work to Begin on SIU Apartment Project

Work on a \$4 million apartment project for medium-income student and faculty members at Southern Illinois University is scheduled to begin July 17 at Carbondale.

The project is the first college housing program in the U. S. to be financed through the Federal Housing Administration. Billy D. Hudgens, director of business services for the Carbondale campus, said the FHA final commitment was signed last Thursday.

Consumers Construction Co. of Chicago will build the apartment complex on a 40-acre site southwest of SIU's campus near the Carbondale city reservoir. It will include 304 two and three-bedroom apartments, with rents ranging from \$95 to \$105 per month, including utilities. Thirty-nine apartment buildings and a community center will be located in the complex. The brick-veneer buildings will be of two-story design, four apartments on each level.

GC Park District Golf Lessons Start Monday

Through the Granite City park district's summer program, boys, girls and adults who reside within the park district boundaries are invited to participate in a series of golf lessons starting Monday at Wilson Park in the area of Fehling road and State street. It was announced today by Harold Brown, park superintendent.

All classes will be conducted from 1:30 to 3:30 p.m. daily with boys scheduled to meet each Monday and Friday, girls, Wednesdays, and adults, Tuesdays and Thursdays. Youngsters who participate must be junior or senior high age students, Brown said.

The park officials pointed out that after the first two weeks, the lessons will be transferred to the Arlington Golf Course with the instruction periods remaining the same day and time for the three separate groups.

Additionally, the park district will have available for Granite City residents, ten permits daily to the Granite City Army Depot golf course and 20 daily permits for the Arlington club. Brown

Mrs. Thoeke's Painting Selected for Exhibition

Mrs. William H. (Barbara) Thoeke of Granite City, the mother of three young sons, who recently resumed formal art studies at Southern Illinois University-Southern campus, has been given special recognition for one of her artworks, an abstract painting in oils, entitled, "The Figure."

The painting, a female form canvas, selected for exhibit in the tenth annual "SIU Art Fair," held in the lobby of the new SIU-SW Communications Building, received an honorable mention award from art authorities, Richard Moses of the University of Illinois; Kent Addison of Maryville College; and Steven Zawojski of Washington University.

Mrs. Thoeke's entry was the only painting selected for display among the works submitted by members of the SIU-SW basic studio art class, from projects completed in the past year.

She said the permits may be obtained at the Wilson Park office.

Although she continued to paint for her own pleasure, Mrs. Thoeke had discontinued her formal art education several years ago when she left the University of Missouri, Columbia, at the end of her sophomore year, to spend one year in Europe. During this period, she worked for five months at an orphanage in Germany, studied language and toured several countries.

Her mother, Mrs. Margaret Premier, is a former art supervisor of the Ferguson, Mo., school district. Mrs. Thoeke, who started a part-time art course at SIU-SW in January, said today she was "very thrilled at receiving the award."

She and her husband, Bill, own and operate the Chain of Rocks Motel, at the interchange of I-570 and Highway 3. Their sons are Eric, 8, Mark, 6, and Craig, 4. Thoeke is president of the Granite City Rotary Club.

Five Diabetic Warnings to Children

If a child begins to drink great quantities of liquids but is continuously thirsty; if he eats more food than before, but loses weight steadily; if he begins to wet the bed after having previously stopped doing so; if he suddenly seems less peppy; and if he suffers from severe constipation—take him to the doctor as soon as possible.

These five symptoms present at one time are indication of a possible diabetes. A quick detection in children can be life saving. When treated early, diabetes, a chronic disease, can be controlled.

Simon Proposes Federal Income Sharing Formula

State Sen. Paul Simon (D, Troy) this week proposed a program of federal income-sharing with states and cities which would result in a return to the city of Granite City of \$801,085 in additional income.

Speaking to a dinner meeting of the Springfield Press club, Simon said the state legislature has so far failed to realize the extent of "the most pressing domestic issue, the urban problem."

He called for federal income-sharing on a per capita basis, with a graduated scale of assistance to cities and \$15 per capita annual grant to states. Simon suggested that the aid to cities be initiated as soon as possible but that the aid to states be held off until financial pressures from the Vietnam war diminish.

"In many cities the need is so obvious and so pressing we cannot afford to wait," Simon said. "To wait in aiding cities like East St. Louis and Chicago is to court trouble."

"The only strings which would be attached to aid to the cities is that the money must be used honestly, and must not be used as a basis for increasing long-term municipal indebtedness. Otherwise I favor letting local officials come up with imaginative plans for solving some of the overwhelming problems in which many cities face."

Tax Cut Possible

Simon said the minority of cities, in relatively good financial shape, could use the money to reduce local property and personal property taxes.

Simon's plan calls for an eventual total expenditure of \$7 billion, including \$3 billion to the states. He pointed out that "if the federal level of taxation on individuals and corporations was the same today as it was two decades ago, federal income for the current fiscal year would be approximately \$23 billion higher."

"Every economic indicator points to a stable annual surplus in the federal treasury following the conclusion of the Vietnam conflict. And between now and the end of the conflict certain programs, such as the space program, can be slowed down a little to take care of the immediate problem our cities are facing."

Simon's plans would call for the following aid to cities:

Cities under 10,000 population: \$5 per capita, except for those cities with a growth or loss of 5% or more in population over the previous census; they would receive a total of \$10 per capita. Up to 3% of the municipalities within a state could be designated as needy and receive the total of \$10 per capita assistance.

Venue Cited

He cited Venice as an example of a small city with many problems and limited income. He proposed:

Cities 10,000 to 50,000 population: \$15 per capita, \$30 per capita.

Cities 50,000 to 100,000: \$30 per capita.

Cities 100,000 to 500,000: \$45 per capita.

Cities 500,000 to 1,000,000: \$60 per capita.

Cities larger than one million: \$75 per capita.

"The reason for a graduated scale is that with increased numbers and increased density of population, the problems of human relations, crime, fire protection and recreation become more difficult."

"New York City, for example, spent \$314 per resident in 1964-65 while the 180 cities in the 50,000 to 100,000 class spent an average of \$110 per resident. Yet obviously, New York needs more help in solving that city's problems than do most of the cities between 50,000 and 100,000 population."

Simon suggested that small municipalities not providing park, library, water and sewer services would be eligible for only a portion of the allocated funds.

Under his plan Illinois would receive approximately \$200 million a biennium in additional federal funds.

"This will give local governments a chance to show some initiative and imagination," Simon said. "It is at least worthwhile as an experiment for a few years. Money alone will not solve our urban problems, but the combination of money and compassionate imagination can."

GC Summer Program Registration Monday

Hundreds of Granite City youngsters are expected to register Monday, June 12, at ten recreational centers located throughout the community, where the Granite City park district will conduct its annual summer recreation program this year.

Registration will start at 9 a.m. June 12, with children wishing to participate directed to register at the center nearest their own home. The extensive eight-week program will get into full swing at 9 a.m. the following day.

Sessions will be held daily, Monday through Friday, from 9-11:30 a.m. and from 1-3:30 p.m. This year, centers will be located at Logan, Marshall, Mc-

Kinley, Parkview, Niedringhaus, Nameoki, Webster and Wilson grade schools; the park district community center, 322 Niedringhaus avenue; and the Salvation Army center, 1421 Nineteenth street.

Varied activities ranging from arts and crafts to free swims and special field trips are planned for the second through the St. Louis Zoo, or Grant's Farm.

Brown also reminded parents that each youngster is required to pay a \$1 insurance fee, which provides coverage through June 1, 1968, including protection for the child in winter park-sponsored activities. Qualified supervisors will be provided at all the recreational centers, the official said.

4 County Zoning Requests are Ok'd 5 Others Deferred

Requests for four special use permits have been approved and five more in the area are being further study by the Madison county zoning board of appeals in action by the county board of supervisors.

One held over was the petition of Carl E. Mainridge, a Coolidge junior high school teacher, for an accessory building before a principal building to produce small animals as rabbits, white mice and guinea pigs off Route 162 about a quarter mile south of a public school. The animals would be sold to laboratories and universities.

The zoning board granted approval with a stipulation that an enclosed building be constructed. Mainridge's attorney argued

that this was too expensive and that he planned to use hutches. Jack Clifford, zoning administrator, said the board felt that hutches would be unsightly and would be detrimental to the future development of property in the area.

Truck Warehouse

The petition of Daniel F. Boone, Harvey Boone, Bradley Boone and Louis Green, owners, and Bud Arnold, purchaser, for a truck warehouse in an R-3 one-family residence district in Nameoki township was held over at the request of Harry Briggs, township supervisor, as 24 objectors attended the public hearing.

The zoning board had granted the request with stipulations that a dust-free surfacing be applied to the parking area and a six-foot chain-link fence be constructed.

Two petitions by Illinois Power Co. and Continental Illinois National Bank to rezone four tracts of land in Chouteau township

from residential and agricultural districts to manufacturing and wholesale business districts were held in abeyance.

A recommended denial of a petition by Charles Adams, lessee, and Ben Zimring, owner, to set a mobile home in an agricultural district in Nameoki township was held over.

The board approved a petition of M. R. Harpole for off-street parking in an R-4 single family residence district in Chouteau township with the stipulation that suitable dust-free surfacing be applied and a woven wire mesh type fence be constructed to regulate the traffic flow pattern.

The petition of Lawrence and Mary Lockhart was approved for the production of plastic and wood products in conjunction with the stabling of a horse in an R-2 one-family residence district in Chouteau township.

David Gene Buehrer was authorized to set a mobile home in an R-3 one-family residence

district in Chouteau township. A petition of Anna Flowers to operate a florist shop in her home in an R-4 single family residence district in Nameoki township was granted.

Zoning Board Overruled
The zoning board was overruled by a 25-19 vote of the supervisors when it granted for a second time a petition by Donald M. Barton for a sanitary landfill in an agricultural district adjacent to Cahokia creek.

A petition signed by 188 residents of the area opposed the landfill, and many were on hand at the meeting. They retained an attorney to represent their case. A state sanitary engineer said the landfill had obtained "qualified" approval by the state.

The East Side Levee & Sanitary District opposed the landfill on claims that it would cause pollution and siltation of its drainage diversion canal at the expense of the taxpayers.

'Music Under the Stars' Rehearsals Begin June 6

Under the supervision of Warren G. Simpkins, Granite City high school vocal music director, the Granite City park district plans to continue its "Music Under the Stars" presentations again this summer, according to Park Supt. Harold Brown.

Tentative performance dates are set for June 15, June 25, July 13 and July 27 in Wilson Park near the 27th street and Delmar avenue entrance. Admission is free.

All rehearsal sessions begin Tuesday, June 6, in the vocal music annex at Granite City high school. It was announced today by Director Simpkins.

He reported that rehearsal schedules will follow a pattern set in previous years, with each of four groups practicing on Tuesdays and Thursdays.

Jury Awards \$260,000 To Accident Victim

A jury returned a \$260,000 judgment at 11 a.m. Saturday for Larry Slighton, Mt. Olive, against the U Haul It Co. following a four-week trial which began in the Granite City division of circuit court.

Slighton, who had sued for \$1 million, was severely burned and lost an arm when a truck struck a trailer pulled by an auto in which he was a passenger on a highway about two years ago. The car overturned and burned. The driver was killed.

According to testimony, the trailer was weaving across the center line. Owner of the truck, the Ashmore Trucking Co. of Ashmore, Ill., also was a defendant in the case but the jury absolved it of fault. The case went to the jury at 3:30 p.m. Friday.

The trial was conducted by Associate Judge Austin Lewis. It was moved from the Granite City court to Edwardsville after a week because of noise created by a remodeling project under way at the city hall.

Hospital Campaign Workers, Leaders Celebrate Minimum Goal Victory

TOP TEAM CAPTAIN, Mrs. Kelly Dutko, displays the "No. 1" pennant during an impromptu march at the "over the minimum goal" report meeting for St. Elizabeth Hospital's fund campaign.

Hospital Drive Top Teams Are Given Recognition

Top teams in the General Solicitation Division of St. Elizabeth Hospital's fund campaign for expansion and modernization were announced this week by Dr. Felicia Koch, chairman.

In making the announcement, Dr. Koch praised the work of the hundreds of volunteers who raised \$81,191 in pledges, aiding the hospital campaign in topping the minimum goal of \$1,000,000 with total pledges of \$1,088,193.

"I especially want to acknowledge the work of the section leaders—Mrs. Nina Bigley for the women's teams who raised \$50,065, and Dr. Stanley F. Maer, who headed the men's teams that raised \$31,128," Dr. Koch told the Press-Record.

Aiming for \$1,500,000, she is joining with the general campaign co-chairmen, Delaney Davis, president of the Castings Division of General Steel Industries, and Lyle Guiley, executive vice-president of Granite City Steel Co., in urging all volunteers to continue their efforts to raise the challenge goal of \$1,500,000.

"Only by going to the \$1,500,000 figure can we add the badly needed 50 beds for medical and surgical patients and meet the demands of this growing community," Dr. Koch added.

Announcing the General Solicitation Division teams with top pledge totals, Dr. Koch said long hours were put in by the volunteers in calling upon Quadtians to help the hospital fulfill the community's needs. Construction of the new wing along the west side of the 2100 block of Iowa street is to start this year. Sister Mary Thomas, hospital administrator, told the volunteers "All of you have given of yourselves, your time and your dollars. We want you to know that we feel that you are all a part of the hospital family and are helping us to serve in every way we can the people of the community."

Top teams of the division are—Team 66, Mrs. Walter Judd and Mrs. John Krajnovich, co-captains, \$6769.

CADILLAC'S No. 1 SALESMAN!

Will you pay the price of a Cadillac and not get one?

If you're planning to buy in the medium-price range, an investigation could show that you are very close to Cadillac in cost. And since Cadillac holds its value so well it actually costs less to own than many lower priced cars. Right now we have a fine selection of models and colors and we are giving special trade-in allowances during the remainder of June.

The only rival to a new Cadillac is a used Cadillac

Sharon Reinhardt Extends Service With Peace Corps

SHARON REINHARDT

Miss Sharon Lee Reinhardt, daughter of Mr. and Mrs. Elmer Reinhardt of 2805 Iowa street, plans to remain in the Philippines with the Peace Corps two months past her service termination date, but plans to return to Granite City in November, according to word received today.

She currently is serving as a Peace Corps Volunteer to the Republic of the Philippines and for the past 20 months has been working with the Bureau of Public Schools of Zamboanga City on Mindanao in development of special classes for educable mentally handicapped children.

While in Zamboanga City, Miss Reinhardt has been working with co-teachers of the special classes and local community agencies, and serves as coordinator for Camp Hope, a local day camp for handicapped children which is operated entirely on community volunteer help and financial support.

She is an instructor at Baguio Vacation Normal School, teaching courses in mental retardation to teachers from Bureau of Public School divisions throughout the Philippines. She was scheduled to terminate her service next month, but will remain an additional two months to work with the Special Education Section in Manila.

Miss Reinhardt is a graduate of Granite City high school and Illinois State University. Her present address is in care of United States Peace Corps, 728 Indiana street, Eureka, Manila, Republic of the Philippines. She said that upon her return she will be available to speak to clubs and organizations on the Peace Corps or the Philippines.

Portney Assistant

Head of IRS District

Promotion of Gerald G. Portney to IRS assistant district director in Springfield, Ill., was announced this week by the Internal Revenue Service.

Portney, 33, assistant to the district director at Hartford, Conn., succeeds Alden W. McCannless, who has been appointed assistant district director in St. Louis. The Springfield district serves taxpayers in central and southern Illinois, an area with a population of nearly three million, and in July 1965-June 1966 processed over 1,500,000 tax returns and collected nearly \$1.5 billion in federal taxes from individual and corporate taxpayers.

\$5000 Gratuity Payable to Veteran Survivors

A \$5000 death gratuity is now payable to survivors of Illinois veterans who died in active service between Jan. 1, 1957, and Sept. 29, 1965, Joseph D. Wetton, local service officer of the Illinois Veterans Commission, said today. The veterans death must have occurred:

As a direct result of actions of hostile forces.

Or as a direct result of an ac-

cident involving a military or naval aircraft, or an aircraft under charter to the Department of Defense, Army, Navy or Air Force.

Or as a direct result of the extra hazard of military or naval service.

Or while performing service for which incentive pay for hazardous duty or special pay is authorized, according to Department of Defense regulations.

Recent action by Congress has liberalized the law to the extent that the \$5000 death gratuity will

not be reduced by any amount eligible for the gratuity must file a claim on or before Nov. 1. Further information may be obtained by contacting Wetton at the city hall in Granite City.

It also removes the requirement that these survivors waive their right to any future compensation or dependency and LIC payments to receive the \$5000 payment.
